
I relish the fulfillment that comes with realizing I have made the best decision having embarked on detailed analysis and research. In my short professional career, I have gained cutting edge skill and expertise in analysis and conducting research to aid informed decision. I consistently seek growth and development and detest mediocrity.

EXPERIENCES

Sales & Marketing Consultant

Hill Bridge Consulting

Apr. 2019 – Dec. 2019

- Hill Bridge is a business strategy consulting firm focused on helping SMEs improve their performance through advisory, coaching and strategy that would help the SME to overcome challenges, capture growth opportunities and build an enduring success. At Hill Bridge Consulting,
 - 📄 I supported my team with the responsibility of increasing the organization's client base through copy writing, online marketing, E-mail marketing and social media marketing.
 - 📄 I co-developed a marketing strategy that led to an increase in revenue by 40% in Q3 of 2019.
 - 📄 I received complaints from clients, follow through until they are resolved and provide feedback to the client concerned.
 - 📄 I received orders from clients, ensure their preference is well established and also make it a priority they get the best quality service.

NYSC (Department of Geology and Exploration Geophysics)

Ebonyi State University, Abakaliki

April 2018 – March 2019

In addition to supporting a Professor on a Research (I work through relevant documents to collate data and perform the needed analysis and experiment to aid informed decisions) and handling laboratory sessions,

- 📄 I assisted in conducting field works in environmental and sedimentary geology.
- 📄 I gained knowledge on the use of the Petrel Software.
- 📄 I drafted weekly practical schedules ensuring it does not clash with lectures.

Intern

Danvic Petroleum International

Sept. 2016 – Nov. 2016

- Danvic Petroleum International (DPI) is an upstream service provider for the oil and gas sector bridging the gap between Nigerian University theory and the practical of the oil and gas Industry.
 - 📄 I was trained on the use of Open D'Tect software and I leveraged on this knowledge to delineate the faults and hydrocarbon proficiency of different fields.
 - 📄 I was trained to proficiently utilize the Geolog Software.
 - 📄 I assisted my team in executing the Oso Field Project for ExxonMobil.

Intern

Mobil Producing Nigeria (MPN)

June 2016 – Aug. 2016

- 📄 I gained knowledge on Biomarker Analysis GCMS (Whole Oil Analysis) on crude oil samples.
- 📄 I was trained on Methanol Analysis and I was able to determine the methanol content of different crude samples from Niger Delta basin.
- 📄 I supported my team in conducting practical using ASTM procedures.

- 📁 I tracked and managed all change controls and routine checks on the gas spectrophotometers.
- 📁 I served as the lead technical intern for geological warehouse and laboratory facility.
- 📁 I carried out daily routine checks on the spectrophotometers in the laboratory.
- 📁 I conducted analysis to determine the time retention of the organic component of crude samples.
- 📁 I assisted my team to delineate the methanol content of the crude on Erha Field using the gas spectrophotometers.
- 📁 I supported my team to ensure strict compliance to safety standards via investigation and reporting.

Intern

Nigerian National Petroleum Co-operation (Information Systems Department) June 2016 – Aug. 2016

- 📁 I learnt the basics of reservoir models and modelling techniques, Seismic interpretation and well logging techniques.

EDUCATION

B.Tech. (Geology/Mining) Science Laboratory Technology

Federal University of Technology | Owerri, Imo State.

(Top 1%)
2012 - 2017

OND Science Laboratory Technology

Abia State Polytechnic | Aba, Abia State.

2009 - 2011

PROFESSIONAL SKILLS

Open D'Tect Software

Laboratory Analysis

Petrel

Geolog

Team Work

Project Management

Leadership

Microsoft Office

Interpersonal Skill

PROFESSIONAL MEMBERSHIP

📁 **Member – A-18-0581**

Nigerian Mining and Geoscience Society

2018 – Date

📁 **Member – ST2017/10020**

Nigerian Association of Petroleum Explorationists

2016 – Date

CERTIFICATION

- Energy Transition – Innovation towards a Low-Carbon Future
Massive Open Online Course (MOOC) by IFPS 2019

AWARDS

- **Best Corp Member**
Department of Geology and Exploration Geophysics
Ebonyi State University, Abakaliki 2018
- **Best Graduating Student**
Department of Science Laboratory Technology (Geology/Mining Option)
Federal University of Technology, Owerri 2017
- **Winner**
ExxonMobil Geoscience Challenge 2016

RESEARCH PROJECTS

- 📁 Assessment of Heavy Metal Distribution of Surface Water Resources of Enyigba Lead-Zinc Mining District, Ebonyi, South-Eastern Nigeria. 2019
- 📁 Lithofacies and Petrographic Characterization of the Outcrop Sections of Ajali Sandstone at Nkoto Ihube, Anambra Basin, South Eastern Nigeria. 2019
